Special Agents Investigative Report On the Lake Havasu City Sewer Extortion

Committed by

JANET NAPOLITANO

And

JOHN AND JANE DOES 1-1000

Executive Summary of Investigative Report

This Investigative Report concludes that Janet Napolitano, hereinafter “Napolitano,” and her co-conspirators John and Jane Does 1-1000, hereinafter “cronies,” acted in collusion to force an unlawful municipal sewer project upon the people of Lake Havasu City in violation of the United States Congressionally Mandated “strict liability” statutory requirements of the Clean Water Act of 1972, specifically 33 U.S.C. § 1311(a), and even more specifically the National Standards of Performance as defined in 33 U.S.C. § 1316 requiring application of the best available technology currently available to provide for the control, containment of all pollutants at-source to eliminate the discharge and to provide for the reclamation, reuse and recycle of the water and to minimize the use of the public’s drinking water supplies. And still further, an unlawful sewer project in violation of the requirements under 33 U.S.C. § 1317 and 33 U.S.C. § 1342 that requires at-source “pretreatment” of any source of any toxic pollutant listed in on the EPA Toxic Pollutant List, such source being any pollutant source, i.e. a building, a home, a facility, commercial building, etc., having a toilet.

Any source of discharge that does not comply with the minimum requirements of 33 U.S.C. § 1311(a) is construed as a “listed chemical and biological weapon of mass destruction” constituting a National Emergency in the meaning of 10 U.S.C. § 382. In the case of Lake Havasu City, Napolitano and cronies are responsible for application of approximately 28,000 listed chemical and biological weapons of mass destruction that are discharging, at a minimum, approximately 2,500 pounds of uncontrolled and uncontained nitrosamines (highly toxic carcinogens) per day plus many other hazardous substances. Further, the unlawful centralized sewer of the municipal wastewater company, impersonating a city government and doing business as Lake Havasu City, a private corporation, is additionally unlawfully discharging thousands of pounds of hazardous substances listed on the EPA Toxic Pollutants List into the drinking water supplies for southern California and Arizona, constituting heinous criminal acts of genocide upon the American people.

Extortion of the People of Lake Havasu City

Napolitano and cronies facilitated an unlawful sewer to create an unlawful debt, with interest, extorting the people of Lake Havasu City of approximately **\$1,800,000,000 (one billion, eight hundred million dollars)**

Poisoning the Drinking Water Resources of the People of Arizona & Southern California

Napolitano and cronies have committed crimes of violence through acts of domestic terrorism in discharging hazardous substances/toxic pollutants, uncontrolled and uncontained, into the drinking water resources of the people of southern California and Arizona resulting from unlawful discharges into the navigable waters of Lake Havasu. Said unlawful discharges into and from public sewers were to be eliminated by 1985 as defined under 33 U.S.C. § 1251(a)(1). This primary goal and policy mandated by the United States Congress was the first requirement mandated in the Clean Water Act of 1972, eliminate all discharges into navigable waters [from public sewers] by 1985 through implementation of at-source control in “strict liability” compliance with 33 U.S.C. § 1311(a), and more specifically 33 U.S.C. §§ 1317(a) & (b), and 1342(a) , requiring at-source control for recycle and reuse of the water at said source so as to not “wastewater” and to minimize the demand on public drinking water supplies.

Forcing Violations through Threats of Incarceration

Napolitano and cronies forced people of Lake Havasu City, specifically Darlene Shaddox, who was reclaiming 100% of her water by application of best available technology that restored the biological, chemical and physical integrity of the water to a healthy potable reclaimed and restructured water quality thereby enabling 100% beneficial reuse of all her water used, thereby eliminating discharge of toxic pollutants and any wasting of her water. Napolitano and cronies filed malicious charges against Shaddox and threats of incarceration and loss of her Real Estate license if she didn't remove the technology that is mandated by the Clean Water Act to serve every on-shore facility, and connect to and pay for the unlawful city sewer. Since, Shaddox has received sewer bills of over \$300 a month. This was no less than a criminal act of domestic terrorism by tyrants against Shaddox.

Background of Investigation

Napolitano and cronies are person(s), purported public officer(s) who each are found to be private contractors and employees of private companies, and instrumentality of, or at a minimum, accessory to the fact of an unlawful industry known as the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY. Same are actually impersonating “public officials” as they are representing themselves as “public officials” as opposed to private contractors or employees of a private company, such company being an instrumentality conducting racketeering activity in collusion with the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY, a criminal enterprise since the adoption of the Clean Water Act by the United States Congress on October 18, 1972. Napolitano and cronies are acting to impersonate legitimate Government entities at all levels, but in fact being the enemy of the united States for America,

respectively the American people and the lawful government from which all powers derive. Napolitano and cronies are knowingly inflicting upon the people “chemical and biological weapons of mass destruction,” aka public sewers and septic systems, and are acting in collusion to cause damage from pollution of the nations waters now for almost 40 years in direct violation of the requirements of the Clean Water Act of 1972, a “strict liability” statute that attaches criminal penalties to violators.

The Clean Water Act of 1972 was a United States Congressional Mandate that required, at minimum:

- Application of the best available technology is required to be applied at each point source of any building, i.e. onshore facility that may be a source of a discharge of a pollutant, i.e. a toilet.
- The liability for the control and containment of pollutants and benefit of the recycle and reuse of water after use by consumer (owner or operator of source) was placed upon the owner or operator of said source.
- No discharge (of pollutants) is allowed to leave the private sector property at which pollutants are generated, to cross any boundary to any other property, i.e. into the public sector, or into the environment without first being subjected to best available technology capable of controlling, containing and eliminating, where possible, said discharges of pollutants from all buildings, such being the national goal as defined by Congress pursuant to the Clean Water Act of 1972.

Our Investigation has revealed Napolitano and cronies are and have been acting in violation of the requirements of the Clean Water Act, have knowingly, willfully and wantonly caused continuous unlawful uncontrolled and uncontained discharges of pollutants at Napolitano and cronies’ individual onshore facilities, acting in collusion, in association-in-fact, with the criminal enterprise of the secret society that hijacked the Clean Water Act on October 18, 1972, so as to unlawfully maintain:

- Unlawful control of all water by the public sector as opposed to the mandated control being diverted to the private sector pursuant to mandatory requirements of the Clean Water Act in 1972
- Unjust enrichments resulting from unlawful control of water by creating unlawful debts
- Unjust enrichments resulting from sickness and health negatively effected from uncontrolled discharges of toxic pollutants/hazardous substances into the American peoples’ drinking water resources, a form of kidnapping the people for ransom by stripping them of their health and welfare and right to clean water.

Who are the members of this “secret society?” The following is a comprehensive list of the “society” of the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY, organized by the secret society. Their association-in-fact is they are predominately impersonating public officials and are all acting in violation of the requirements of the Clean Water Act of 1972. They are all unlawfully discharging at each of their homes and work places. There are two (2) primary societies which head up the criminal enterprise to sustain the

rackeering activities of said secret society, aka the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY that is impersonating government at all levels. Those are:

- The Bankers, aka stakeholders in the unlawful wastewater industry, private and public, acting to create unjust enrichments from this almost \$500 trillion dollar industry, the largest in the world
- The Civil Engineers of the wastewater discipline who are designing and facilitating the installation of the listed chemical and biological weapons of mass destruction, aka on-shore facilities discharging in violation of the Congressionally mandated non-discretionary requirements under 33 U.S.C. § 1311(a)
- The Members of the British Accreditation Registry, aka “Officers of the Court,” are charged with protecting the engineers and bankers from prosecution for their unlawful wastewater management practices by whatever means necessary, such as dismissing complaints and initiating malicious prosecutions against anyone who threatens their WASTEWATER EMPIRE, such as has been being done to the Special Agents and Investigators of the National Standards Enforcement Agency.

Our Investigation concludes these above defined members, having titles of nobility, had unlawfully infiltrated positions of government at all levels in violation of the United States Constitution, adopted September 17, 1787, prior to the adoption of the Clean Water Act by the United States Congress in 1972.

At that point in the late 1960s, approximately 50% of all municipal budgets were met through revenue generated in association with sewer and water projects and related service fees. The Clean Water Act commanded a paradigm shift for this method of “wastewater management,” to shift to the private sector from the public sector and by 1985 all public sewers discharging into navigable waters, i.e. creeks, rivers, streams, lakes and oceans, were to be eliminated through required application of at-source best available demonstrated [pollutant] control technology that would, at minimum:

- Contain and control all pollutants at-source so as to prevent them from migrating to cause water and other environmental pollution [Mandated]
- Eliminate all unlawful discharges of pollutants into the environment or into public sewers by July 1, 1972 by requiring best available technology to be implemented at each on-shore facility, building or source of pollutants, and where possible, eliminate discharges of pollutants [Mandated]
- Provide for water recycle and reuse techniques at each source to benefit the owner or operator and to reduce the demand on the public drinking water supplies [Mandated]

However, the secret society didn’t want to give up their WASTEWATER EMPIRE to the private sector, the American people. So, the Nixon administration established the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY in 1970 with intent to “hijack” the Clean Water Act, specifically the National Standards of Performance that required private sector at-source control and containment of all pollutants.

The same year, the United States Congress adopted the R.I.C.O. Act of 1970, the racketeering influenced and corrupt organizations act. It is the belief of the Special Investigators, based upon personal knowledge, it became a known fact that the stakeholders in the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY did not intend to give up this massive wastewater empire, the “cash cow / money tree” that they, the civil engineers, lawyers and bankers, had created in townships of American over the decades since the late 1800s, despite the public health and welfare and clean water requirements of the Act.

Accordingly, the United States Congress adopted the R.I.C.O. Act to serve as a tool for prosecution of these criminals who refused to comply with the non-discretionary requirements of the Clean Water Act as defined in 33 U.S.C. § 1370. However, this proved to be a difficult tool to use as the officers of the court were members of the criminal enterprise, having a duty to the secret society to protect the criminal enterprise, and would simply “dismiss” any case brought that may threaten this criminal WASTEWATER EMPIRE. In fact, the Special Investigators have personally witnessed these criminals threaten to incarcerate people who were complying with the requirements of the Clean Water Act, purifying their sewage flow at their home, recycling and reusing 100% of all water used and having zero waste of water or discharges, if they didn’t remove the technology and connect to an unlawful sewer, thereby creating an unlawful discharge in violation of 33 U.S.C. 1311(a) and become subject to paying an unlawful debt for sewer service to the wastewater enterprise, impersonating a city/municipal government.

Napolitano and cronies have conspired and devised multiple malicious prosecutions against the American people that developed and or used the best available technology required by the Clean Water Act. One of the Investigators of this Report has had a forty (40) year career association within this WASTEWATER INDUSTRY and with its members and developed the best available technology that eliminated all discharges of pollutants at-source. The UNITED STATES WASTEWATER MANAGEMENT INDUSTRY boycotted the application of the technology within the UNITED STATES upon it being tested and evaluated in 1994 by NSF International and promulgated to all regulatory authorities throughout the UNITED STATES and BRITISH COLUMBIA in March of 1995. Said technology established the new National and Federal Standards of Performance required to be adopted by all regulatory authorities nationally and internationally to control and purify water resulting from onshore facility “discharges.” This control and containment technology is demonstrated to purify domestic sewage discharged from onshore facilities back to a pure anti-carcinogenic quality of water by two primary methods, by eliminating pH acidity by providing for inherent biological alkalinity recovery of the pH back to a non-carcinogenic value of between 7.5 and 8.0 consistently. Further, it completely eliminates toxic carcinogenic pollutant discharges known as “nitrosamines,” also know as “nitrates.” The technology is scalable and applicable to all sources, residential, commercial, industrial and municipal, as the best available technology. The technology established the new water quality standard as can be seen in the National Clean Water Standards of Performance at www.nsea.us.

Napolitano and cronies, in their secret society have acted and is acting in collusion to oppress this technology and deprive its International distributor known as Advanced Environmental Systems, Inc. (now out of business), of the ability to conduct national and international commerce to provide the people with this technology to achieve their basic fundamental rights to clean water. It is the belief of the Special Investigators the malicious prosecutions against Special Investigators is to cause their unlawful incarceration so as to shut them up in regard to their testimonies as witnesses to this corrupt UNITED STATES WASTEWATER MANAGEMENT INDUSTRY, to prevent the national and international exposure to the truth about this criminal enterprise doing business as the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY while impersonating lawful Governments at all levels, i.e. THE UNITED STATES OF AMERICA, STATES, COUNTIES AND MUNICIPALITIES/CITIES.

Special Investigators have concluded that Napolitano and cronies, in malfeasance of office, are primary instrumentalities of this nation-wide corruption in the nature of genocide committed upon the American people and to the malicious prosecutions being unlawfully waged against the Special Investigators, their associates that Napolitano and cronies consider a threat to their WASTEWATER EMPIRE by exposing the truth about who they are and what they are doing to the American people and our water resources.

Our Investigation has confirmed approximately twelve (12) so-called judges, in both federal and state venues, in two different states, refused to recognize the mandated federal health policy and clean water law and dismissed all fifteen (15) actions filed with evidence against violators of the Clean Water Act over the past five (5) years. These actions have confirmed their allegiance, duty and association as “officers of the court” to the secret society of the criminal enterprise, to protect the WASTEWATER EMPIRE, and NOT the American people. Their part in this “criminal enterprise” is to protect the civil engineer who stamps and certifies “unlawful” methods of so-called wastewater management, but in fact are ‘listed chemical and biological weapon of mass destruction’ to enable their criminal enterprises to maintain the unjust enrichments created from the unlawful discharges of toxic poisons into the American people’s drinking water supplies, i.e. the medical insurance industries, the medical care industries, the pharmaceutical industries, etc., that are all driven from Americans drinking toxic water. This additionally includes the bankers who loan money to facilitate transfer of sources that are operating unlawfully in violation of the federal health code, the Clean Water Act, WHILE contributing to and facilitating these listed chemical and biological weapons (public sewers and septic systems) of mass destruction, poisoning the nations drinking water resources, destroying the health of the American people, killing the American people by exposure to water transmitted disease causing pathogens and listed toxic chemical and biological agents being “discharged” into our public drinking water supplies from the discharges of these listed chemical and biological weapons of mass destruction. A listed chemical and biological weapon of mass destruction means any unlawful discharge

from an onshore facility, i.e. residential, commercial, industrial or municipality/city, discharging in violation of 33 U.S.C. § 1311(a) and further defined as unlawful since July 1, 1973 in 33 U.S.C. § 1365(f).

Further, this Investigation has confirmed that all so-called “judges” of inferior so-called “courts” are mere private contractors to private corporations having “court” names but limited ONLY to executive powers. The people did not extend “judicial” powers to private corporations. Accordingly, all UNITED STATES DISTRICT COURTS AND STATE SUPERIOR COURTS AND ALL OTHER INFERIOR COURT SO-CALLED “JUDGES” are impersonating a lawful judicial officer, absent power, usurping and acting as an instrumentality of a criminal enterprise to with intent to steal, kill and destroy the American people, trespassing upon their unalienable and fundamental rights to life, liberty, property and the pursuit of happiness. The Special Investigators have concluded these acts of usurping to be all treasonous acts of genocide, crimes of violence against the American people by knowingly, willingly and wantonly poisoning the American people’s drinking water resources and destroying the physical, chemical and biological integrity of all other water resources.

Our investigation concluded that the members of our so-called federal, state and local governments who are holding positions of authority, with titles of nobility, are predominately also members of the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY of which the members of are predominately affiliated with the following organizations and institutions that have at least three (3) structural features that exemplify the actual association-in-fact enterprise that has an ascertainable structure beyond that inherent in the pattern of racketeering activity in which they are engaged pursuant to the below Supreme Court decision:

The Supreme Court issued its opinion on June 8, 2009 upholding the District Court’s refusal to instruct the jury that an association-in-fact enterprise must have an ascertainable structure beyond that inherent in the pattern of racketeering activity in which it engages. Judge Alito wrote: “From the terms of RICO, it is apparent that an association-in-fact enterprise must have at least three structural features: a purpose, relationships among those associated with the enterprise, and longevity sufficient to permit these associates to pursue the enterprise’s purpose. As we succinctly put it in Turkette, an association-in-fact enterprise is ‘a group of persons associated together for a common purpose of engaging in a course of conduct.’ [452 U.S., at 583.](#)” See [Boyle v. U.S., 2009 WL 1576571 \(U.S.\)](#)

The members of the following organizations and institutions that predominately profile the criminal enterprise doing business as the UNITED STATES WASTEWATER INDUSTRY, creating unjust enrichments from unlawful discharges, have the required three (3) structural features in common as follow:

1. A purpose. To continue in their businesses of wasting water and discharging pollutants for unjust

enrichments dealing in unlawful inferior wastewater management methods, chemical and biological weapons of mass destruction, refusing to lawfully act according to the requirements of the Clean Water Act of 1972, to achieve the national goal to eliminate all discharge of pollutants at-source.

2. Relationships. The FEDERAL, STATE AND LOCAL GOVERNMENTS are predominantly also members or supporters of the UNITED STATES WASTEWATER INDUSTRY as shown below.
3. Longevity. They have been operating unlawfully, jointly and unlawfully causing, permitting and allowing unlawful discharges of toxic pollutants/hazardous substances now for almost 40 years.

Special Investigators investigation, on information hereto attached and upon personal first hand knowledge of at least one of the Special Investigators, has concluded the members of the association-in-fact criminal enterprise are conducting racketeering activities, doing business as the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY, acting against clean water and in unison committing unlawful acts in violation of the Congressional mandatory requirements of the Clean Water Act of 1972. Our investigation has concluded that members of all levels of federal, state and local governments are generally associated with, but not limited to, the following organizations, associations, institutions and their members, employees and contractors:

“All Governors, Mayors, councilmembers and state and local officials who are the managers and recipients of the State Clean Water and Drinking Water Revolving Loan Funds (SRFs)” [quote in opposition to the Clean Water Investment Act of 2002] are to be construed as acting in collusion with the organization/principal to impair states waters as defined in 33 U.S.C. 1370(b) and who are directly/indirectly associated with at least one of the below association-in-fact organizations acting against Clean Water and is an instrumentality of the criminal enterprise known as the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY but who are IMPERSONATING legitimate governments, to include federal, state, municipal, districts and all other political subdivisions, all acting in collusion to maintain their criminal enterprises at the expense of the health and welfare of the American people and their public drinking water supplies. This industry is “wasting” approximately 500 billion gallons of America’s precious drinking water supplies each and every day nationally.

Our Investigation has concluded that these national association-in-fact organizations, aka bankers and stakeholders acting and operating against clean water and compliance with the requirements of the Clean Water Act, are primarily, but not limited to, the following:

Special Investigators do hereby declare the above organizations, institutions, affiliates and their partnerships and members are construed to be acting in collusion AGAINST Clean Water, and are to be additionally construed as acting to impair states' [the people's] waters as defined in 33 U.S.C. 1370. STATE AUTHORITY and to further the purpose of the association-in-fact criminal enterprise and its racketeering activities to gain unjust enrichments, at a minimum, by causing unlawful discharges and implementing inferior methods to cause chemical and biological degradation of our nations water resources through the utilization of their chemical and biological weapons of mass destruction against the water and the people, as opposed to furthering the purpose of the National Goal defined and mandated by the U.S. Congress in the Clean Water Act of 1972, Title 33 §1251 et seq., to eliminate all discharges of all pollutants at all point sources. Compliance with this strict liability statute is non-discretionary and attaches criminal penalties per day of unlawful discharge in violation of 33 U.S.C. § 1311(a) and as further defined in 33 U.S.C. § 1365(f).

The above defined members to the criminal "wastewater" enterprise unlawfully and knowingly act to poison the American peoples' drinking water supplies in a gross breach of their fiduciary duty to the people, a basic humanitarian Duty of Care as defined by International Law. Poisoning nations' drinking waters is a heinous crime of violence and is a method of mass destruction of the population by knowingly and willingly introducing chemical and biological agents to cause harm and death to the people and all living things.

We, the Special Investigators, are hereby taking action to gain our lawful remedy and lawful remedy for the American people, to serve and protect ourselves and the people from the on-going and continuing acts of

treason/tyranny, intimidation and deprivation of life [drinking water free of poisons], liberties [free from the intimidation by these tyrants] and property [rights to our water and a healthy body] in this matter committed against the Special Investigators and the American people by Napolitano and cronies with malicious acts of deceit and fraud perpetrated upon the people now for almost 40 years. Alexis Strauss, a Director of Region 9 of the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, admitted to the Special Investigators in a public forum held in San Francisco in front of the President's Council for Ocean Protection, the EPA's inaction and knowing omission of duty, that they have, since the adoption of the Clean Water Act, have knowingly, willfully and wantonly REFUSED to administer the National standards of performance as defined in the Clean Water Act, 33 U.S.C. § 1316. National Standards of Performance. She confessed and charged the source of this corruption in an email to a Special Investigator as to be "headquarters," the "Administrator" of the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, a crony of Napolitano who currently employs over 16,000 civil engineers.

Napolitano and cronies are employed by a fictitious entity registered as private corporations and are not true governmental entities at all. Napolitano and cronies have refused to implement or allow any at-source "control" or "containment" of any unlawful discharges since the adoption of the Clean Water Act on October 18, 1972 by the United States Congress. The Special Investigators have concluded if the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, the STATES, the COUNTIES, the MUNICIPALITIES and CITIES had adopted the National Standards of Performance requiring at-source control and containment, i.e. within the private sector, such administration would have eliminated their control of America's water and would have additionally resulted in their positions in government also being eliminated. This corrupt element of quasi-government regulators would have been virtually eliminated, approximate half of our government structure. 33 U.S.C. § 1251(d) states:

(d) Administrator of Environmental Protection Agency to administer chapter

Except as otherwise expressly provided in this chapter, the Administrator of the Environmental Protection Agency (hereinafter in this chapter called "Administrator") shall administer this chapter.

If the "Chapter," aka "chapter 26 of the Clean Water Act that required at-source containment and control of all water used, had been "administered" by all regulatory authorities as congressionally mandated by the federal, state, county, municipal and city regulatory authorities according to the "strict liability" statute mandated by the United States Congress had been complied with, America would not have this corrupt element of government infiltration in our legitimate government structures today. They would have been out of business.

Our investigation has concluded that this was the intent of President John F. Kennedy who knew their strong hold on the American people was the control of our "water." This is why he charged the United States

Congress with the task of creating the Clean Water Act, so as to put the control of the water back into the private sector so the public sector no longer was able to “feed” on the unjust enrichments as approximately 40% of all municipal budgets are met by unlawful enrichments created from unlawful sewer related revenue.

Accordingly, the criminal liability for the unlawful septic discharges and direct connections to public sewers allowed via a “permitting system to UNLAWFULLY allow discharge” since July 1, 1973, belongs to the State, County and its co-conspirator Municipal Public Works who, apparently and believed by Special Investigators, knowingly issued such unlawful “discharge permits” with malicious intent, to impose an unlawful sewer project for their own unjust enrichments and to gain control of the people’s water in blatant violation of the requirements of the Clean Water Act of October 18, 1972, specifically the national standards of performance requirements and the pretreatment of toxic pollutants requirements.

The Investigation has concluded Napolitano and cronies and co-conspirators further move to steal millions of gallons of water from the people of Lake Havasu City along with millions of dollars through the forced imposition of the unlawful sewer absent Congressionally Mandated Clean Water Requirements as defined in Section 5.0. Clean Water Regulations of the National Clean Water Standards of Performance, Section 2.0 of the National County Clean Water Standards of Performance and Enforcement Procedures. (see www.nsea.us/county-standards/) Unlawful because they refuse to consider the “nondiscretionary” implementation of at-source pretreatment control at each individual onshore facility, residence/home, in order to “contain” hazardous substances, aka toxic pollutants/controlled substances, subject to control pursuant to Title 33 Chapter 26 and Section 1317-Toxic and Pretreatment Effluent Standards and in accordance with Title 33 Chapter 26 and Section 1342-National Pollution Elimination System, Subparagraph (a), at their source. The lawful solution of at-source control eliminates not only the pollutants from each source, but also the need for Napolitano and cronies unlawful sewer project resulting from their pattern of unlawful waste management practices to further the purpose of their criminal enterprises, the unlawful enrichment created from project costs of \$1.8 billion (includes interest) that Napolitano and cronies have imposed upon the people of Lake Havasu City and the on-going collection of unlawfully debt, “sewer fees” at a minimum. Many residents of Lake Havasu City have shown the Special Investigators monthly sewer bills of over \$200 and \$300 dollars a month. The city has a lien on their homes so if they can’t pay the sewer bills, they take their home.

Napolitano and cronies have refused now for almost 40 years to comply/implement with these strict liability statutory requirements in the interest of the public health and welfare and to restore the chemical, physical and biological integrity and preservation of the nations’ waters. But instead, unlawfully proceed to further extort the people, knowingly willfully and wantonly acting to cause water and other environmental pollution resulting from their unlawful sewer project/wastewater management practices/patterns in order to gain unjust

enrichments in collusion with the wastewater racketeers of the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY believed by the Special Investigators, based upon information, to be impersonating government officials at all levels, federal, state, county, municipal, etc., all having in common unlawful discharges at their homes and work places, contributing to a listed chemical and biological weapons of mass destruction that are discharging billions of pounds of high level toxins, poisons and carcinogens daily into the nations drinking water resources.

The Special Investigators investigation has concluded that Napolitano and cronies have had a fiduciary duty to control and eliminate discharges of pollutants (“discharges”) so as to prevent such pollutants from traveling or migrating to cause water and other environmental pollution. The source of that jurisdiction is derived from the Clean Water Act of 1972, Title 33 Chapter 26 and Section 1370 which establishes state authority and their obligation to adopt the most strict standards and effluent limitation, i.e. “prohibitions.” Napolitano and cronies have refused to comply with these prohibition requirements. The Clean Water Act of 1972 is the “federal health code” regarding water pollution prevention and control [at-source containment and elimination of pollutants]. That authority specifically required Napolitano and cronies to adopt the strictest water quality standards to eliminate discharges and administer enforcement accordingly. Title 33 Chapter 26 and Section 1365(f) clearly establishes it as an unlawful act after July 1, 1973, to issue any septic tank “discharge permit” or any other inferior [anything but the best available technology] pollutant control device or “wastewater” or “disposal” system “discharge permit” or allowing any uncontrolled control of a pollutant subject to such control, such as a direct connect to a public sewer absent pretreatment requirements without first requiring application of the best possible control technology currently available as required pursuant to Title 33 Chapter 26 and Section 1311(a) applicable to every person, at a minimum, all members of government who have taken an oath of office and swore to uphold the United States Constitution and themselves to be in compliance with the law, since adoption of the Clean Water Act by the United States Congress that mandated compliance to this “strict liability” statute as of October 18, 1972.

33 § 1311. Effluent Limitations [containment at property]

(a) Illegality of pollutant discharges except in compliance with law

Except as in compliance with this section and sections 1312, 1316, 1317, 1328, 1342, and 1344 of this title, the discharge of any pollutant by any person shall be unlawful.

Special Investigators have witnessed Napolitano and cronies, almost 40 years later, have refused to adopt or enforce or personally comply with any strictest water quality standards as a nondiscretionary requirement, to act according to authority as defined in the following strict liability statute:

33 § 1370. State authority (1)

Except as expressly provided in this chapter, nothing in this chapter shall

(1) preclude or deny the right [fiduciary duty] of any State or political subdivision thereof or interstate agency to adopt or enforce

(A) any standard or limitation respecting discharges of pollutants, or

(B) any requirement respecting control or abatement of pollution; except that if an effluent limitation, or other limitation, effluent standard, prohibition, pretreatment standard, or standard of performance is in effect under this chapter, such State or political subdivision or interstate agency may not adopt or enforce any effluent limitation, or other limitation, effluent standard, prohibition, pretreatment standard, or standard of performance which is less stringent than the effluent limitation, or other limitation, effluent standard, prohibition, pretreatment standard, or standard of performance under this chapter; or

(2) be construed as impairing or in any manner affecting any right or jurisdiction of the States with respect to the waters (including boundary waters) of such States.

Napolitano and cronies act(s) of omission(s) is a blatant breach of public trust by the people's trusted purported public officials and attaches criminal penalties to such act or acts. Title 33 Chapter 26 and Section 1370(2) clarifies such omission(s) shall "be construed as impairing or in any manner affecting any right or jurisdiction of the States [the people] with respect to the waters (including boundary waters) of such States." Napolitano and cronies have been acting unlawfully to impair the waters of the states by knowingly refusing to adopt and implement effluent limitations in conjunction with, at a minimum, the drinking water source for California and Arizona, the Colorado River.

Napolitano and cronies have had a nondiscretionary duty to require implementation of the best available technology to control, i.e. eliminate discharges, pollutants where possible at each individual source of pollution, any structure having a toilet, through containment and control that, where possible, eliminates all discharges of all pollutants, the National Goal as defined in the Clean Water Act, and provides for recycle and reuse to minimize demand on public water supplies. Consider the following strict liability statute:

33 § 1316. National standards of performance

(a) Definitions

For purposes of this section:

(1) The term "standard of performance" means a standard for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a

standard permitting no discharge of pollutants.

(2) The term “new source” means any source, the construction of which is commenced after the publication of proposed regulations prescribing a standard of performance under this section which will be applicable to such source, if such standard is thereafter promulgated in accordance with this section.

(3) The term “source” means any building, structure, facility, or installation from which there is or may be the discharge of pollutants.

(4) The term “owner or operator” means any person who owns, leases, operates, controls, or supervises a source.

Special Investigators have witnessed that Napolitano and cronies, either an owner or operator of a source or sources, refuse to recognize the strictest standards and have imposed an unlawful public sewer, absent the mandatory control of at-source pretreatment at each home, i.e. at-source or onshore facility, such an unlawful practice mandated by the United States Congress for the pursuant to the strict liability statute, the Clean Water Act, to be eliminated by 1985 pursuant to the following Congressional declaration of goals and policy:

33 § 1251. Congressional declaration of goals and policy

(a) Restoration and maintenance of chemical, physical and biological integrity of Nation’s waters;
national goals for achievement of objective

The objective of this chapter is to restore and maintain the chemical, physical, and biological integrity of the Nation’s waters. In order to achieve this objective it is hereby declared that, consistent with the provisions of this chapter—

(1) it is the national goal that the discharge of pollutants into the navigable waters [from public sewers] be eliminated by 1985;

The Special Investigators have witnessed Napolitano and cronies have acted in violation of their fiduciary duty, pursuant to their contract, their Oaths of Office to the people, and have not acted in the interest of the people, their health and welfare and have not acted in a lawful manner of best management practice as mandated by the Congress for the United States as defined in the Clean Water Act of 1972 and provided for in the National Clean Water Standards of Performance and Regulations adopted and promulgated by the National Standards Enforcement Agency, an *in capita* sovereign body authority of, for and by the American people, organized to protect the people against quasi-government entities impersonating lawful public officials acting not in the best interest of the people, such as the “40 year” unlawful practice of Napolitano and cronies, poisoning the nations waters in direct defiance and violation with the mandated nondiscretionary requirements of the Clean Water Act, knowingly and willfully committing on-going acts of criminal violence against the people, specifically the people of Lake Havasu City of the Arizona Republic.

The Special Investigators have personally witnessed Napolitano and cronies, without proper authority and lacking jurisdiction, knowingly and maliciously organized the unlawful sewer project so as to extort property from the people of Lake Havasu City. The Special Investigators and the people of Lake Havasu City witnessed Napolitano and cronies conspire with Lake Havasu City to “fix” the votes of the people of Lake Havasu City who voted in the “Havachoice” initiative of 2003. During the process of getting the signatures from the people in regard to the initiative to enable them to have a choice to reclaim and reuse their water at their home at an estimated city-wide cost of \$50 million as opposed to paying for a sewer at the cost of \$500 million (\$1.8 billion with interest), the initiative workers poled the people of Lake Havasu City, twice. Both times it was 80% of all people encountered wanting to have a choice of reclaiming and reusing their water and 20% for the expensive city sewer. The votes came in and the Mayor announced the results as 80% for the sewer and 20% for having a choice. This was an obvious blatant act of election fraud/corruption committed against the people of Lake Havasu City by Napolitano and cronies.

The Special Investigators have further witnessed that Napolitano and cronies have not acted in a manner beneficial to protect the people of Lake Havasu City’s health and welfare by adopting standards requiring proven technology to eliminate the 65 toxic poisonous and hazardous substances required to be contained and controlled at each individual onshore facility, i.e. source of a pollutant, at each home, pursuant to requirements of Title 33 Chapter 26 and Section 1321. The below common chemical and biological toxins, hazardous substances, are just a few of those 65 toxic pollutants subject to be controlled and contained, where possible, eliminated, at each source property pursuant to the strict liability statutes of the Clean Water Act and predominantly found in domestic sewage. The US EPA List of Toxic Pollutants identifies 65 toxic pollutants required to be contained subject to at-source control and containment. Primary specific toxic pollutants / hazardous substances present in domestic sewage discharged from homes and work places are, but not limited to, by number as defined on the US EPA List of Toxic Pollutants, that Napolitano and cronies are unlawfully discharging at least one of daily at their homes and work places into the American people’s drinking water resources, are:

6. Arsenic and compounds (*rat poison*)
8. Benzene (*carcinogen*)
12. Carbon tetrachloride (*toxic carcinogen*)
15. Chlorinated ethanes (including 1,2-di-chloroethane, 1,1,1- trichloroethane, and hexachloroethane)
19. Chloroform (*excessive exposure to chloroform can cause long term health damage to several major organs*)
25. Dichlorobenzenes (1,2-, 1,3-, and 1,4-di-chlorobenzenes)

- 27. Dichloroethylenes (1,1-, and 1,2-dichloroethylene) (*carcinogen; cardiovascular and blood toxicant*)
- 35. Ethylbenzene (*carcinogen*)
- 36. Fluoranthene (*carcinogen*)
- 37. Haloethers (other than those listed elsewhere; includes chlorophenylphenyl ethers, bromophenylphenyl ether, bis(dichloroisopropyl) ether, bis-oroethoxy) methane and polychlorinated diphenyl ethers) (*toxic*)
- 38. Halomethanes (other than those listed elsewhere; includes methylene chloride, methylchloride, methylbromide, bromoform, dichlorobromomethane (*acute toxicity*))
- 44. Lead and compounds
- 50. Nitrosamines (*carcinogen*)
- 59. Tetrachloroethylene (*cardiovascular effects; liver cancer*)
- 61. Toluene (*toxic narcotic; pharmaceutical*)
- 63. Trichloroethylene (*toxic solvent*)

Note: The complete list appears in the Code of Federal Regulations at 40 CFR 401.15

CFR 40 § 401.15 Toxic pollutants.

The following comprise the list of toxic pollutants designated pursuant to USC Title 33 Chapter 26 Section 1317(a)(1) of the Federal Water Pollution Control Act of 1948 as amended, and which established per USC Title 33 Chapter 26 Section 1311(a) is unlawful for any person to discharge absent application of best available technology to provide for the at-source control and containment of said pollutants. Since July 1, 1973 it has been unlawful for any person to discharge in violation of said public policy. To do so attaches a criminal penalty to the act pursuant to USC Title 33 Chapter 26 Section 1319 of \$25,000 per day of unlawful discharge or 3 years in prison, or both. Napolitano and cronies have been unlawfully discharging now for almost 40 years.

All National Standards of Performance (applies to homes and commercial businesses of the people) and Federal Standards of Performance (applies to municipal and industrial facilities) sources of discharge have had a strict liability [since July 1, 1973] to apply the best practicable control technology currently available. Failure to do so violates civil public policy and carries criminal penalties. The list of toxic chemical and biological pollutants subject to at-source control by all persons, i.e. Federal citizens/persons/citizens of the United States, as defined in USC Title 33 Chapter 26 Section 1317(a), at a minimum our so-called public officials, are:

1. Acenaphthene; 2. Acrolein; 3. Acrylonitrile; 4. Aldrin/Dieldrin 5. Antimony and compounds; 6. Arsenic and compounds; 7. Asbestos; 8. Benzene; 9. Benzidine; 10. Beryllium and compounds; 11. Cadmium and compounds; 12. Carbon tetrachloride; 13. Chlordane (technical mixture and metabolites); 14. Chlorinated benzenes (other than di-chlorobenzenes); 15. Chlorinated ethanes (including 1,2-di-chloroethane, 1,1,1-trichloroethane, and hexachloroethane); 16. Chloroalkyl ethers (chloroethyl and mixed ethers); 17. Chlorinated naphthalene; 18. Chlorinated phenols (other than those listed elsewhere; includes trichlorophenols and chlorinated cresols); 19. Chloroform; 20. 2-chlorophenol; 21. Chromium and compounds; 22. Copper and compounds; 23. Cyanides 24. DDT and metabolites; 25. Dichlorobenzenes (1,2-, 1,3-, and 1,4-di-chlorobenzenes); 26. Dichlorobenzidine; 27. Dichloroethylenes (1,1-, and 1,2-dichloroethylene); 28. 2,4-dichlorophenol; 29. Dichloropropane and dichloropropene; 30. 2,4-dimethylphenol; 31. Dinitrotoluene; 32. Diphenylhydrazine; 33. Endosulfan and metabolites; 34. Endrin and metabolites; 35. Ethylbenzene; 36. Fluoranthene; 37. Haloethers (other than those listed elsewhere; includes chlorophenylphenyl ethers, bromophenylphenyl ether, bis(dichloroisopropyl) ether, bis-(chloroethoxy) methane and polychlorinated diphenyl ethers); 38. Halomethanes (other than those listed elsewhere; includes methylene chloride, methylchloride, methylbromide, bromoform, dichlorobromomethane; 39. Heptachlor and metabolites; 40. Hexachlorobutadiene; 41. Hexachlorocyclohexane; 42. Hexachlorocyclopentadiene; 43. Isophorone; 44. Lead and compounds; 45. Mercury and compounds; 46. Naphthalene; 47. Nickel and compounds; 48. Nitrobenzene; 49. Nitrophenols (including 2,4-dinitrophenol, dinitrocresol); 50. Nitrosamines; 51. Pentachlorophenol; 52. Phenol; 53. Phthalate esters; 54. Polychlorinated biphenyls (PCBs); 55. Polynuclear aromatic hydrocarbons (including benzanthracenes, benzopyrenes, benzofluoranthene, chrysenes, dibenz-anthracenes, and indenopyrenes); 56. Selenium and compounds; 57. Silver and compounds; 58. 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD); 59. Tetrachloroethylene; 60. Thallium and compounds; 61. Toluene; 62. Toxaphene; 63. Trichloroethylene; 64. Vinyl chloride; 65. Zinc and compounds

Conventional pollutants.

The following comprise the list of conventional pollutants designated pursuant to USC Title 33 Chapter 26 Section 1314(a)(4) of the Federal Water Pollution Control Act of 1948:

1. Biochemical oxygen demand (BOD);
2. Total suspended solids (nonfilterable) (TSS);
3. pH; [less than 7.5 is acidic and harmful to public health]
4. Fecal coliform;
5. Oil and grease

Each of these common hazardous substances / toxic pollutants were nondiscretionally mandated by Congress in 1972 to be controlled at the source/home/building/facility, etc. [national standards of performance 33 U.S.C. 1316] and work place [federal standards of performance 33 U.S.C. 1316] of Napolitano and cronies, which Napolitano and cronies have knowingly and maliciously failed to do now for almost 40 years with intent to harm. The Clean Water Act is a “strict liability statute” to which criminal penalties are attached for failure to comply. Napolitano and cronies do not have discretion to not comply with this mandated federal health code and should be prosecuted accordingly. It is believed by the Special Investigators Napolitano and cronies are on a mission of genocide as their allegiance is to the known enemy of the united States for America, also known as the “red-coats.” This investigation has confirmed the source of the two basic societies herein defined which hijacked the true government of these united states is London/Vatican/the Crown and of which organized and incorporated the UNITED STATES, INCORPORATED in 1872. It is believed by the Special Investigators they were commissioned to establish sewers to accomplish a mission of genocide against the American people to kill, steal and destroy the people and our resources while generating massive unjust enrichments from their “municipal” WASTEWATER MANAGEMENT ENTERPRISES. It is also the belief of the Special Investigators Napolitano and cronies are instrumentalities of these missions of genocide and extortion of the American people.

Napolitano and cronies have refused to require best available at-source pollutant containment and control technology to be applied at each source / onshore facility as is required pursuant to the Congressional Mandate [see Congressional Mandate at www.nsea.us], but instead continue their “unlawful acts” with malicious intent to gain unjust enrichments for themselves as opposed to acting in accordance with their fiduciary duty in the interest of the public health and welfare and the preservation of the American people’s drinking water supplies and all other aquatic resources.

The Special Investigators have witnessed Napolitano and cronies maliciously co-conspire and continue their unlawful acts of forcing the issuance of toxic “discharge” permits that allow the toxic discharges to migrate into the people’s drinking water resources and into the ocean, which have continued now for almost 40 years. They have extorted millions of dollars from the people of Lake Havasu City to pay for unjust and unlawful sewer projects, paying civil engineering firms to studying and design unlawful sewers, chemical and biological weapons of mass destruction, while knowing that the best available at-source control technology that eliminates pollutants at-source and all need for any centralized sewer collection system, is lawfully mandated. Napolitano and cronies unlawful acts are designed to steal the water from the people and gain unjust enrichments from the unlawful sewer project absent mandated pretreatment control, continually committing acts of criminal extortion, imposing unjust liens on the people of Lake Havasu City’s private homes, creating unjust billings for poisoning the state’s waters, and the list just goes on and on. Napolitano

and cronies have knowingly and wantonly with intent to harm, committed these gross acts of kidnapping and tyranny constituting a Constitutional Crisis of a National Emergency!

Napolitano and cronies have failed their fiduciary duty to act in a lawful manner beneficial to the preservation and restoration of America's drinking water resources pursuant to the requirements of the Clean Water Act. Further, Napolitano and cronies are acting in concert in a manner to actually prevent the application of the lawful solution and exposing the owners and operators of said on-shore facilities to criminal liabilities of these on-shore facilities, homes and work places. The Special Investigators have additionally discovered that the STATE is the listed "owner" of virtually every source of discharge within the State. However, the Special Investigators hereby make it a matter of record that they are unwilling victims of the fraud and deceit perpetrated upon them by their once "thought" trusted public purported officials, Napolitano and cronies. It was a fraudulent deceptive lie!

Individual compliance with the following effluent limitation requirement is nondiscretionary and declares it to be unlawful for any person to discharge any pollutant:

33 § 1311. Effluent limitations

(a) Illegality of pollutant discharges except in compliance with law

Except as in compliance with this section and sections [1312](#), [1316](#), [1317](#), [1328](#), [1342](#), and [1344](#) of this title, the discharge of any pollutant by any person shall be unlawful.

Napolitano and cronies have a nondiscretionary fiduciary duty to the American people, specifically the people of Lake Havasu City to eliminate discharges of toxic poisons and carcinogens by implementing the required best available technology that provides for the mandated/nondiscretionary at-source containment and control at all sources of toxic chemical and biological pollutants and have a duty to prevent said toxic chemical and biological agents from entering into the American people's drinking water supplies and into the ocean, and to NOT permit discharges of toxic poisons and carcinogens, aka hazardous substances, and if Napolitano and cronies do (as they already have), Napolitano and cronies are subject to criminal penalties as defined in Title 33, Chapter 26, Section 1319-Enforcement, for allowing said toxic pollutants to be discharged into the American people's drinking water supplies and into the ocean and causing harm to the aquatic life forms. Knowingly contributing to the poisoning of drinking water supplies constitutes a crime of violence. The Special Investigators have witnessed Napolitano and cronies have knowingly, willfully and wantonly done this. Accordingly, the Special Investigators conclude that Napolitano and cronies are violent criminals waging war against the American people using unlawful septic and sewer systems as chemical and biological weapons of mass destruction implemented against the people to create unjust enrichments and to benefit the secret society's other enterprises, i.e. insurance, health care, pharmaceutical, etc.

The Investigation confirms that 1500 people in America are dying from cancer each day from polluted drinking water. More than all other countries combined. Napolitano and cronies have knowingly caused discharges of millions of pounds of toxic chemical and biological agents into the people's drinking water resources and into our oceans now for almost 40 years, unchecked.

Special Investigators have reason to believe Napolitano and cronies are operating in collusion with the PRESIDENT¹ OF THE UNITED STATES, THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, THE UNITED STATES HOMELAND SECURITY, the AMERICAN BAR ASSOCIATION and THE AMERICAN SOCIETY OF CIVIL ENGINEERS, all collectively having an association-in-fact with THE UNITED STATES WASTEWATER MANAGEMENT INDUSTRY. All the above are private corporations and co-corporations that are instrumentalities of the primary original corporation of London. They venue is limited to within the boundaries of the ten square miles of Washington D.C. and its territories.

Special Investigators have concluded that they are all acting/impersonating a legitimate United States Government at all levels so as to maintain their "wastewater empire" at all costs. Accordingly, they lack judicial powers as no judicial powers were ever extended by the people, us, to private corporations. If we had, we would be extending judicial powers to the known enemies, aka the "Brits," the "Red Coats," of the United States, *de jure*, respectively the American people. Special Investigators have confirmed these so-called "judges" are impersonating a lawful judicial officer so as to commit racketeering activities in collusion with the other members of the society which are predominantly civil engineers, attorneys and judges and purported public officials, all non-government private interest groups and administrative agencies of private corporations. Special Investigators have confirmed they are trespassing on the rights of the American people through unlawful securitization schemes making prisoners for profits creating billions of dollars off of each of these incarcerated prisoners, mostly incarcerated for "victimless crimes." This is why there is a 99% conviction rate in America. Our men and women in their private prisons are profitable for these tyrants running these securitization schemes in their corrupt courts. They refer to it as "prisoners for profits."

The Special Investigators have confirmed that every single court across this country is a co-conspirator to this sinister crime of perpetuity.

How so one might ask? Our Investigation has concluded that so-called Federal and State judges are signing standing orders to invest all the court cases through the Court Registry Investment System (hereinafter "CUSIP©), directly deposited into the Federal Reserve Bank located in Dallas/Houston, Texas.

¹ Declared to be unlawfully holding the Office of President of the United States because he does NOT qualify as a citizen of the United States under the criteria required by the Naturalization Act of 1802, the "Law of the Land."
28 of 38

Every court case is assigned, by the court administrator, a US Treasury Public Debt number, placed onto the court document, including but not limited to traffic citations, after the unknowing participants in the case have received their copy of the same, but without the added monetary transformation of that instrument into a financial transaction, which is the definition of a securitization.

After the Public Debt number is obtained, which now converts the instrument into a counterfeit obligation pursuant to USC TITLE 18 §§ 472, 473 and 474, now the court administrator additionally counterfeits the same obligation by adding a CUSIP© number.

CUSIP© is the acronym for Committee on Uniform Securities Identification Procedures. It is a copyrighted registered trademark of The American Bankers Association. This means only one of two things. Firstly being the court administrators are knowingly committing copyright infringement violations in addition to uttering counterfeit obligations, and/or secondly that the court administrator must obviously be a member of the CUSIP©.

Now the courts have fraudulently converted every court case into a banking financial securities instrument, fraudulently converting the court into the creditor position and the respondent/plaintiff in the matter now unknowingly converted into the debtor. To make matters even worse for the judges, they are knowingly acting with a vested interest with insider knowledge as insider trading in addition to violations of judicial canons.

Further still, judges are to act without bias, to make rulings on the merit of argument, but instead are making financial investments on every case, knowing the exact meaning of every number and/letter applied to and now written on the face of the instrument in all cases in the form of the CUSIP© and are now ruling based on futures (conflicts of interest / with prejudice) rather than rule of law, evidence, oral or written argument.

Additionally, the courts are also committing tax fraud by shifting the debt created by every particular case back onto the individual who is the actual Creditor, then fraudulently conveying the case into an investment instrument to be deposited into the Dallas Houston Texas Federal Reserve which now shifts money from the Creditor side of the transaction into the pockets of the Debtors side, deceptively laundered now as a fraudulent debt into Corporate assets, converted again into bonds, stocks, and grants given back to the county deceptively through the Department of Transportation, or some other agency, now squeaky clean after the laundry process. (Please refer to “Debenture,” “Convertible Debenture” and all the other definitions listed above.)

The U.S., United States, as defined in 28 USC 3002(15), is bankrupt on the authority of Perry v. United States, 294 U.S. 330-381; 79L. Ed. 9121, and is an "obligor/grantor" to the Federal Reserve Bank, created by the authority of the Federal Reserve Act of 1913, 38 Stat. 265, Chapter 6.

The Federal Reserve Act of 1913, mentioned above, was an act of Private Law, not Public Law, nor Public Policy, as in reference to a Mr. Lewis which was injured by a Federal Reserve vehicle and sued the U.S. government for damages. The court ruled, "...that since the Federal Reserve System and its twelve branch banks are private corporations, the federal government could not be held responsible." Lewis v. U.S., 608F 2d 1239 (1982)

“Inasmuch as every government is an artificial person, an abstraction, and a creature of the mind only, a government can interface only with other artificial persons. The imaginary, having neither actuality nor substance, is foreclosed from creating and attaining parity with the tangible. The legal manifestation of this is that no government, as well as any law, agency, aspect, court, etc. can concern itself with anything other than corporate, artificial persons and the contracts between them.” S.C.R. 1795, Penhallow v. Doane's Administrators, 3 U.S. 54; 1 L.Ed. 57; 3 Dall. 54, Supreme Court of the United States (1795) [Emphasis added.]

“All codes [Chapter 83, Part II as alleged], rules, and regulations are for government authorities only, not human/Creators in accordance with God’s laws. All codes, rules and regulations are unconstitutional and lacking due process.” Rodrigues v Ray Donovan (U.S. Department of Labor), 769 F. 2d 1344, 1348 (1985). [Emphasis added.]

“Any false representation of material facts made with knowledge of falsity and with intent that it shall be acted on by another in entering into contract, and which is so acted upon, constitutes ‘fraud,’ and entitles party deceived to avoid contracts or recover damages.” Barnsdall Refining Corp. v. Birnamwood Oil Co., 92 F.2d 817.

“The terms ‘lawful money’ and ‘lawful money of the United States’ shall be construed to mean gold or silver coin of the United States.” 12 USC 152 Also, Boric v. Trott, Pa. 5 Phila. 366, 404; Klauber v. Biggerstaff, 47 Wis. 551 (1879); Lawry v. McGhee, 16 Tenn. 242 (1835)

“Money” does not include treasury notes.” Foquet v. Headley, 3 Conn. 534, 536

“Federal Reserve Notes are not dollars.” U.S. Treasury, General Counsel, Munk. “Both notes and checks are acknowledgments of indebtedness [not Credit] and promise of payment.” Hegeman v.

Moon, 131 N.Y. 462, 30 N.E. 487 Smith v. Treuhart, et al., 223 N.Y.S. 481

“As the use of private corporate commercial paper [Federal Reserve notes], debt currency or securities [checks] is concerned, removes the sovereignty status of the government of "We the People" and reduces it to an entity rather than a government in the area of finance and commerce as a corporation or person. . . . Governments descend to the level of a mere private corporation and take on the characteristics of a mere private citizen. This entity cannot compel performance upon its corporate statute or rules unless it, like any other corporation or person is the holder-in-due course of some contract or commercial agreement between it and the one upon whom the payment and performance are made and are willing to produce said documents and place the same evidence before trying to enforce its demands called statutes. For purposes of suit, such corporations and individuals are regarded as entities entirely separate from government." Clearfield Trust Co. v. United States 318 US. 363-371

"When governments enter the world of commerce, they are subject to the same burdens as any private citizen or corporation" U.S. v. Burr, 309 U.S. 242 See: U.S.C.A.286e, Bank of U.S. v. Planters Bank of Georgia, 6L, Ed. (9 Wheat) 244; 22 U.S.C.A. 286 et seq., C.R.S. 11-60-103.

“Under a statute defining a negotiable note as a note made by one person whereby he promises to pay money to another person, and providing that the word 'person' should be construed to extend to every corporation capable by law of making contracts, it was held that the word included a state.” State of Indiana v. Woram, 6 Hill (N.Y.) 33, 38, 40 Am.Dec. 378

A state is a person within the meaning of a statute punishing the false making or fraudulent alteration of a public record with intent that any person may be defrauded. Martin v. State, 24 Tex. 61, 68

“An unconstitutional act is not law; it confers no rights; it imposes no duties; affords no protection; it creates no office; it is in legal contemplation, as inoperative as though it had never been passed.” Norton v. Shelby County, 118 U.S. 425 [Emphasis added.]

“No state legislator or executive or judicial officer can war against the Constitution without violating his undertaking to support it.” Cooper v. Aaron, 358 U.S. 1, 78 S.Ct. 1401 (1958) [Emphasis added.]

Despite decades of pleadings by the people of Lake Havasu City to all their purported public representatives, from the Governors and Attorney Generals of Arizona down to their County boards of supervisors and City

council members to stop these unlawful acts, Napolitano and cronies continued to cause/permit unlawful discharges and willfully and knowingly acts to cause said unlawful DAILY discharges of toxic chemical and biological poisons and hazardous substances into the American people's drinking water resources. Not a single so-called judge, county supervisors, senator, assemblyman, regulator, city council member, governor or any other so-called public official in Arizona government has answered to the call of the people to cease these heinous acts of domestic terrorism being knowingly and wantonly and fraudulently committed by these purported public servants against the people of Lake Havasu City and their waters, all unlawful since 1973 as identified by the following strict liability statute:

33 USC § 1365(f) Effluent standard or limitation

For purposes of this section, the term "effluent standard or limitation under this chapter" means

- (1) effective July 1, 1973, an **unlawful act** under subsection (a) of section [1311](#) of this title;
- (2) an effluent limitation or other limitation under section [1311](#) or [1312](#) of this title;
- (3) standard of performance under section [1316](#) of this title;
- (4) prohibition, effluent standard or pretreatment standards under section [1317](#) of this title;
- (5) certification under section [1341](#) of this title;
- (6) a permit or condition thereof issued under section [1342](#) of this title, which is in effect under this chapter (including a requirement applicable by reason of section [1323](#) of this title); or
- (7) a regulation under section [1345 \(d\)](#) of this title.

Napolitano and cronies, impersonating trusted purported public officials, continue their knowingly and maliciously poisoning of the people's drinking water resources and malicious prosecutions against Special Investigators who are witnesses to their heinous crimes. Napolitano and cronies are inducing, by threats of violence, the people into poisoning their own drinking water supplies by forcing unlawful septic tank discharges and unlawful direct connects absent mandatory pretreatment requirements to "control and contain at-source" prior to discharging toxic chemicals and biological agents, unchecked and uncontrolled and uncontained, into unlawful public sewers, despite the pleadings of the people, and now, since 1972, are telling the people they have to pay for an unlawful sewer projects to "waste" 100% of their water and to contribute to the operating of yet another chemical and biological weapon of mass destruction, their home. Unlawful public sewers discharging into navigable waters of the united states was to be eliminated by 1985 pursuant to 33 U.S.C. 1251(a)(1). Napolitano and cronies have refused to comply with this federal health code that would virtually put them out of business. This act alone is construed by Law to be a heinous crime of violence. Poisoning people's drinking water resources is nothing less than an intentional act of terrorism, warring against the Constitution and the united states, the American people, to which Napolitano and cronies supposedly swore an oath to uphold the said Constitution in the interest of the people. Violation of that Napolitano and cronies contract with the people, their Oath of Office, is no less than high treason. It is

believed by Special Investigators by actions that Napolitano and cronies are evil instrumentalities selected to carry out the mission of the criminal enterprise with malicious intent to steal, kill and destroy the American people through unlawful prosecutions and poisoning their drinking water supplies in support of Agenda 21.

Lake Havasu City was selected to receive a *debt-forgiven* humanitarian loan by the National Standards Enforcement Agency of \$600 million dollars to bring all of their unlawful discharges into compliance. They refused to consider the offer as they would have to give up their unjust enrichments and control of the water. This just confirms their criminal intent to maintain their unlawful discharges and to deprive the people of Lake Havasu City of their right to their water and their right to clean water. What lawful public servant would refuse this lawful economic benefit to the people of Lake Havasu City which all would richly benefit from in this time of economic disaster, creating 1,000s of jobs by implementing lawful Clean Water Project? These unjust actions of the purported public servants only further confirm their knowing and willing acts of violence against the people, depriving the people their right to their water, jobs and community industry accordingly.

The Special Investigators have concluded that the actions of Napolitano and cronies only confirm their acting in collusion with the criminal enterprise of the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY, while impersonating lawful public officials. Napolitano and cronies blatantly and criminally ignore the Congressional Mandate to comply with the nondiscretionary federal health code and choose to commit criminal further acts of extortion and fraud upon the people, deprive them of their waters and economic resources, blatant unchecked acts of tyranny knowingly and willingly waged upon the American people and the Special Investigators for exposing the truth.

Accordingly, Special Investigators recommend that Napolitano and cronies be immediately arrested; charged and incarcerated and to be held without bail or bond due to the “*strict liability*” and “*domestic terrorism*” nature of the criminal acts Napolitano and cronies are committing against the American people; and,

Special Investigators recommend that Napolitano and cronies be required to provide for their defense at minimum, any evidence of lawful compliance with 33 U.S.C. 1311(a); any evidence of any at-source control consisting of technology serving the home of Napolitano and cronies on the date Napolitano and cronies took their Oath of Office and began accepting payments for services as such purported public officials, and of their work place of which they are, at a minimum, an operator. Absence these minimum proofs of evidence of their innocence, pursuant to the “*strict liability*” and “*domestic terrorism*” nature of their relevant acts, Special Investigators recommend Napolitano and cronies shall be construed as guilty and charged accordingly; and,

Special Investigators declare Napolitano and cronies have “unclean hands,” pursuant to the “clean hands doctrine” or the “dirty hands doctrine.” Pursuant to the evidence herein presented, Napolitano and cronies, *ab initio*, have acted unethically and in bad faith with respect to the subject of this investigation—that is, with “unclean hands”. Accordingly, every act and deed effectuated by Napolitano and cronies since he/she took an office of service to the American people, having fraudulently taken their Oath of Office to uphold the United States Constitution in the interest of the people, while unlawfully discharging uncontrolled, uncontained toxic chemical and biological agents at his home and workplace, committing daily unlawful acts of a criminal nature contributing to chemical and biological weapons of mass destruction lacks any substance, faith and credit. Accordingly, every act and deed affected by Napolitano and cronies during their employment, acting [impersonating] as a lawful public official, but with “unclean hands,” shall be deemed as ***null and void, ab initio***. All said acts by Napolitano and cronies shall be construed as being willful and knowing acts of warring against the U.S. Constitution and as an enemy of the united States for America, *de jure*, the people untied for this Country of America, are knowingly, willingly and wantonly committing heinous acts of domestic terrorism in detriment to the health and welfare of the American people and the public at large. No person found to be acting in violation of the Clean Water Act or any other laws of the United States can be construed as having “clean hands.” Accordingly, all such acts taken against any of the people by Napolitano and cronies shall be construed, at minimum, as knowing acts of domestic terrorism and tyranny that have been committed against the American people with intent to harm. Ignorance of the “Law” is no excuse, especially to those sworn to uphold it.

No inferior court not of competent jurisdiction, a court not of record, a statutory court operating as a private corporation and or an administrative agency that is an instrumentality of the *de facto* governmental want-to-be authorities, possesses a lawful warrant of authority for competent jurisdiction in this matter. Any such attempt by any person to interfere or attempt to usurp authority in effort to aid and abet Napolitano and cronies shall be included in this action as a co-conspirator and acting in collusion with Napolitano and cronies in a criminal racketeering enterprise and shall be held liable for same charges recommended to be immediately brought against Napolitano and cronies upon failure to act to prosecute.

The Special Investigators have concluded that Napolitano and cronies are unanimously unlawfully discharging uncontrolled toxic poisonous hazardous substances at their homes and their workplaces to further the purpose of the criminal enterprise and for the purpose of gaining unjust enrichments though committing acts of racketeering activities, interfering with national and international commerce, to the benefit of the criminal enterprise at large, the “secret society,” aka, the UNITED STATES WASTEWATER MANAGEMENT INDUSTRY of which the members and instrumentalities of are all acting as and impersonating lawful public officials, but who are, in fact, all merely private contractors or employees of a private corporation and who are trespassing and warring against the rights of the American people, the

Special Investigators and their drinking water resources. Napolitano and cronies are members of Non-Government-Organization, aka “NGO,” acting (“impersonating”) as a lawful “government organization,” an act of fraud on its face, while all are listed on Dunn and Bradstreet as “private companies.” It is impossible to be “private” and “public” at the same time. Likewise, a private employee of a private corporation cannot be a public officer.

NATIONAL STANDARDS ENFORCEMENT AGENCY AUTHORITIES CALLED TO SERVICE

We, the Special Agents of this investigation hereby accept each of your Oaths of Office and do hereby extend to each of you our Sovereign Immunity during your pursuit subject to your duty of office pursuant to your Oath of Office to administer justice on behalf of the people as required by the United States Constitution, in the interest of our peace, our government, our dignity and the security of the several states, and for the health and welfare of the united states at large and above all, **for clean water**, are:
